- safety & security
- energy saving
- convenience
- control
- elegant design

Automatically turns on lights as you arrive home or enter rooms

The Switchmate light switches turn on automatically when your smart phone is in range. When driving up to your home, your garage and porch lights will turn on automatically, after twilight. As you enter each room, the lights will also turn on.

Lighting control always at your fingertips...on your phone

Turn any light on/off from anywhere, anytime within the house.

Faster than installing a light bulb

Magnetically attaches to existing light switches in one second.
